

Knockdown Rebuild Demolition Service

Demolition is a complex process so it's important a qualified contractor completes this service to avoid any delays with your build.

As part of our full service offering, Boutique's expert team can undertake comprehensive demolition management of your site to make sure your build gets started as scheduled without any hidden costs.

Boutique will include and complete the following within your demolition quote:

Liase with External Suppliers to make sure Demolition of the property is completed efficiently

Organise abolishment of services

Liase with traffic management companies (if required)

Organise Asset Protection for Demolition

Organise Temporary Fencing for Demolition

Organise Dilapidation Report

(this is to make sure that no damage is made to your neighbouring properties during the demolition process)

Boutique will ensure the site is clear of any rubble and the levels have not been compromised during the demolition process
